FIGURE 1.1

2.1

Secure the Stiffener Plates (Items 2 & 3) to the Foot Rails (Item 1), using M6x16 Flange Button Heads & M6 Nyloc Nuts (Items 5 & 6). Fully tighten.

Do this to both the LH & RH Foot Rails.  
Place M6 Nut Caps (Item 7) over all Nyloc Nuts.

2.2

**NOTE:** Do not fit the front slat yet.

Use a little Oil / Anti-Seize on screw threads before inserting. Note these are Thread forming screws.

Assemble six Slats (Item 4) to the Foot Rails in 2.2 using M6x25 Thread Forming Screws (Item 8).

**Tightening Torque 8-10Nm / 5.9 ft lb - 7.38 ft lb. Take care when using a cordless driver.**

2.3

Starting at the top edge of the windscreen measure 235mm along the ditch towards the rear of the vehicle. Mark the hole centre in the ditch as shown.

Place the rack on the vehicles roof, lining up the front slot centre with the mark you made and mark the centre of the remaining 5 slots. Do this on both the LH & RH side.

**TIP:**  
Use a drill stop or tape around the drill to mark a depth of 10mm. Some models may have an airbag curtain below.

Drill a 6mm Pilot hole in the center of the markings. Open the holes using a 12mm drill bit.

**Apply anti rust to all holes.**

Insert a M6 x 30 Button Head Bolt (Item 15) into the Jack Nut Tool (Item 14) and loosely fit a Jack Nut (Item 12) to the button head bolt as shown.

Using a cordless driver and a 4mm allen cordless bit, set the jack nut into the hole while holding the Jack Nut Tool, to prevent the Jack Nut from turning.

Make sure the Jack Nut has pulled up all the way to the inside skin of the roof panel.

Place silicone over the 12 holes drilled in 2.3. Center the spacers (Item 11 & 12) over the holes drilled in 2.2, followed by the rack assembly.

- Middle Foot - 1 x 6mm Spacer per hole  
- 1 x 10mm Spacer per hole
- Rear Foot - 2 x 6mm Spacer per hole

Place a bead of silicone on the threads of the M6 x 40 Hex Bolts and secure the Slimsport roof rack using M6 x 40 Hex Bolts & M6 x 19 x 1 Flat Washers (Items 9 & 10). Fully tighten. Place M6 Nut Caps (Item 7) over all Hex Bolts.

Refer to RRAC261 or RRAC262 for fitment of the first slat and wind fairing.
