FIT AND SECURE

2.1

! FITMENT WITHOUT MOUNTING KIT

↻ Place the Drawer (Item 1) in the vehicle and position it. Make sure the Drawer opens & closes freely without touching the plastic trim on the trunk floor.

Once the Drawer (Item 1) is in position, mark the four mounting hole positions. Remove the Drawer and check for clearance on all marked holes, above & below the mounting surface. Start with a 4mm drill bit and drill pilot holes. Finally use the 6.5mm drill bit and redrill holes. Use anti-rust on all holes drilled.

Secure the Drawer (Item 1) to the vehicle using M6 x 30 Hex Bolts, M6 x19 x 1SS Flat Washers, M6 Spring Washer and M6 rivnut (Item 2,3,4 & 6) as shown. Use silicon to create a water proof seal.

2.2

↻ Once the Drawer (Item 1) is secure you can now add the Side Brackets (Item 10) by slotting them into position as shown.

The Drawer system does not come with a vehicle specific deck completion set or face plates.

! FITMENT USING A MOUNTING KIT

Use the hardware & fitting instructions received with (SSCA020 / SSCA021)

↻ After fitting the mounting kit slide three M8 Channel Nuts into each of the Aluminium Extrusions. Secure using the M8 x 25 Hex Bolts, M8 Spring Washers and M8 x 25 x 2 Flat Washers through the Drawer base frame into the M8 Channel nuts.
